AccuBird® Pro

Features

1. Lighting

The light-emitting diodes precisely aligned to the work piece are integrated into the adjustable ring. There are three possible switch positions: **process-controlled, torch function, lighting off**

2. Charging unit

Charging unit with **quick-charge function**. The battery can be used again after only 45 minutes of charging, and is fully charged after 1.5 hours.

3. Rechargeable Slide-on battery 18.0 V/2.1 Ah (li-ion)

When the battery is discharged, the tool switches off automatically at the end of the setting process. Battery includes acoustic charge indicator. Charging time **45 minutes**.

4. Plastic case

AccuBird® Pro comes in a practical plastic case.

Scope of delivery
